Bamboo TOWELS

ECOLOGY & BAMBOO

TEXPOL boasts more than a decade of experience in using bamboo fibres. Over this period we have created various colour options of towels in different sizes and with different border patterns. For more than a decade, bamboo towels have gained many loyal users thanks to their gentleness, superior quality, and exclusive character.

PROPERTIES OF BAMBOO TOWELS

The innovative fibre – bamboo viscose – has many unique properties confirmed by laboratory tests, including bacteriostaticity and resistance to fungi. All bamboo products manufactured by TEXPOL have OEKO-TEX® STANDARD 100 certificates in the most restrictive class 1, which means they are free of any substances in concentrations harmful to baby's skin and the environment.

TEXPOL has been one of the largest towel manufacturers in Poland since 1995. Our products are of superior quality and come in a wide range of patterns and colours. For more than ten years, our portfolio has also included luxurious bamboo towels.

Thanks to diligent manufacturing processes and expensive certification of products, TEXPOL enjoys unrelenting trust of consumers in Poland and all over the world. Our many years of experience prove that clients value Polish products.

Our towels are manufactured in Central Poland, in a small village near Łódź. A team of experts in weaving and design works in Borkowice surrounded by the forest. Thanks to them we can offer you our present portfolio of bamboo and cotton towels, and a wide range of cloths.

When buying TEXPOL towels you also support a workplace of people with disabilities.
